PESSIMISM GIVES WAY AT NEWS OF SPLENDID VICTORY AT TIEN TSIN.

MORE HOPEFUL FEELING.

Victory of Allies Turns the Tide of Sentiment.

Cabinet Decides Extra Session of Congress not Necessary.

WASHINGTON, July 12.—A decided mood of hopeful feeling with regard to the Chinese situation was apparent in all administration circles this evening. The tide of sentiment which has been markedly pessimistic turned with the announcement of the victory of the allies at Tien-Tsin and the capture of the forts and native city, and gathered strength from Minister Wu's cablegram declaring that the foreign Ministers at Peking were safe July 1.

Aside from these dispatches the arrival of the President and the special Cabinet meeting called to consider the situation were the features of the day.

MEETING OF THE CABINET.
The Cabinet met at 2:30 o'clock this afternoon, less than an hour after the President reached the White House. Over a hundred newspaper men thronged the corridors while the Cabinet was sitting behind closed doors. The scene resembled the hottest days of the Spanish war.

There were present Secretaries Hay, Root, Long, Gage and Postmaster-General Smith. At the conclusion of the session, which lasted two and a half hours, Secretary Root gave out the following formal statement of the action of the Cabinet:

NO EXTRA SESSION.
"The President has determined that the facts known to us do not require or justify calling an extra session of Congress. Should future developments indicate that he is unable to do what is required with the means now at his command and the action of Congress is necessary to furnish either money or men or authority, he will not hesitate to call it together."

MORE HOPEFUL FEELING.
The decision that an extra session of Congress was not demanded by existing conditions was the outcome of the showing which Secretary Root and Long were to make in the course of the day.

While this cablegram is not regarded as conclusive, it is accepted in good faith for the present. The administration, it can be definitely stated, has been in motion some machinery by which it is confidently predicted absolutely authentic news as to the fate of our Minister and the other foreigners at Peking will be ascertained. Through what channel the administration expects to receive this all-important news is not stated, but a definite statement of the situation is daily, hourly, expected, can be stated with the utmost positiveness. The additional factor in Peking probably will be a determining factor in biasing the future course of this government. If Minister Conger has been murdered an extension of Congress seems inevitable.

TROOPS AVAILABLE.
Secretary Root furnished to the Cabinet a summary of the troops available, not only in this country, but in Cuba and the Philippines. In his opinion between 10,000 and 12,000 troops in all could be spared for service in China. These reinforcements are to be rushed through at the earliest possible moment. Most, if not all, of them, it is believed, can be landed by the end of August or early in September. One Cabinet officer said that beyond those soldiers already destined for China, from the Philippines, no further troops from the islands would be withdrawn unless the situation became more ominous. In figuring upon the number of additional marines available, Secretary Root received from Peking probably will be a determining factor in biasing the future course of this government. If Minister Conger has been murdered an extension of Congress seems inevitable.

TO RECRUIT MARINES.
This makes an additional 1000 marines who can be brought into service without Congress. His father, Dr. Haywood to use his utmost endeavor to complete the recruiting of the additional 1000 marines. It was decided also that the battalions of marines, 400 in number, which was to have left for the Far East at the end of the month, should go forward on next Sunday, in command of Major Dyer.

CABLED TO REMEY.
A cablegram to Admiral Remy calling for some additional information upon which to act was formulated at the Cabinet meeting and dispatched at once.

Another meeting of the Cabinet may be held tomorrow. It is the present purpose of the President to retire on Thursday evening, unless his presence here is deemed necessary at that time.

PROV. MORE CALM.
DENVER, July 12.—Prof. Van Norman McGee, who has been in the thick of disturbances in China, is safe, at least for the time being. Dr. B. A. McGee, today received a dispatch from him sent from Nagsauk, where he evidently went on leaving Tien-Tsin. As professor of civil engineering in the Imperial University of China at the most precarious position when the Chinese and Japanese were at war, he is a man of considerable importance. He barely escaped the Japanese life in one of Admiral Kempf's launches. The party was fired upon by the mob all the way down to the river, where they were placed of refuge, the foreign concession. Later, it appears from the cable, he arrived in Denver, he went to Nagsauk.

DECLARES WAR ON RUSSIA.

Sensational Dispatch Sent from St. Petersburg.

Chinese Reported to Have Seized a Russian Transport.

LONDON, July 12.—(By Atlantic Cable.) The Daily Mail publishes a sensational dispatch from St. Petersburg dated Monday, which asserts that there is no doubt that China has declared war against Russia.

"The Russian press," says the correspondent, "is restricted to the publication of official details, and the publication of any dispatches from the front has been prohibited. I hear, however, from a reliable source that the Chinese troops and the Boxers seized a Russian transport vessel laden with munitions near Algon (on the Amur River, about eighteen miles from the Russian frontier), killing almost the entire Russian escort."

"They next suddenly attacked and bombarded the town of Blagoveshensk (capital of the Russian government on the Amur River). The garrison held out bravely, but was finally overwhelmed. Nearly all perished and the town was burned."

WAREHOUSE PLUNDERED.
LONDON, July 12.—The Moscow correspondent of the Daily Mail says: "Leading firms here have learned that their tea and silk warehouses at Kalgan (in the province of Chi-Li, near the great wall) have been plundered and burned by Chinese rioters and troops, goods worth \$5,000,000 having been destroyed."

HAMPERING JAPAN.
LONDON, July 12.—(By Atlantic Cable.) There is little further news from China this morning. The attack upon the native city of Tien-Tsin was followed up so swiftly that the Chinese never had time to reorganize and retreat.

UNITED STATES WILLING THAT RUSSIA SHOULD GO AHEAD.
WASHINGTON, July 12.—(Exclusive Dispatch.) Despite assurances from Russia and Germany that they desire complete harmony among the powers to the end that order may be restored quickly and the lives and property of foreigners protected in China, information has been received here which indicates that these two governments are hampering Japan in a desire to put a large force of troops on Chinese soil. Japan's suggestion that she be permitted to send in an additional division of Chinese, bringing her forces in that country up to 25,000 men, was coupled with assurance that she desired to assign this force to Chinese service merely because the troops were ready, and could be landed at Taku quickly, thus insuring the relief of Peking sooner than it could be accomplished if the allies waited until each nation had landed its strictly proportionate share of men.

The United States promptly expressed approval of the Japanese request, believing that it was based on a desire to bring order out of the existing chaos in North China as quickly as possible. Russia, France and Great Britain also assented, and Germany agreed conditionally, saying that she had no objection to the dispatch of a larger force of Japanese soldiers than Japan was entitled to send under the rule of proportion, if the other powers agreed to it.

Later Russia began making inquiries which showed that she desired to know Japan's full purpose, and would like some understanding among the powers as to how far the Japanese would be permitted to go in the use of their larger force. Russia, it was believed, desired the relief of Peking, and a free hand in China. An understanding was apparently reached, and some of the additional Japanese troops sailed for Taku. Recent information indicates that Russia is still making inquiries which indicate a suspicion of Japan, or a desire to thwart her purpose to place a large number of troops in China, and Germany has apparently joined her in these negotiations.

SCORES MASSACRED.
SLAUGHTER IN SHAN SHI.
(BY DIRECT WIRE TO THE TIMES.)
LONDON, July 12.—(By Atlantic Cable.) According to a dispatch from Shanghai to the Daily Mail dated yesterday a massacre occurred on July 9 at Tai Tuen Fu, capital of the province of Shan Shi, forty foreigners and 100 native converts being killed.

LETTERS FROM TIEN-TSIN.
TELL OF THRILLING ESCAPES.
(A. P. NIGHT REPORT.)
SANTA ROSA, July 12.—Letters were received here today from Mrs. J. W. Ragsdale, wife of the United States Consul at Tien-Tsin and from Mrs. Lucy Drummond, who was formerly Miss Lucy Campbell of this city. The letters are under date of June 14 and tell of thrilling conditions existing there at that time. Another letter from Mrs. Drummond at Shanghai tells of her escape from there with her husband and children and describes the hurried escape on June 16 from Tien-Tsin to the last armored train that succeeded in leaving there. Neither of the let-

ters contain any intimations as to the whereabouts of Consul Ragsdale and family, although it is supposed they also left Tien-Tsin at the time of the other American residents.

HART STAYED AND DIED.
AWFUL REPORT REAFFIRMED.
(BY DIRECT WIRE TO THE TIMES.)
LONDON, July 12.—(Exclusive Dispatch.) A Shanghai dispatch to the Daily Mail says Prince Tuan and other friendly officials arranged a concerted scheme to enable Sir Robert Hart, director of the imperial customs, to escape from Peking. Sir Robert was to avail himself of his ability to speak Chinese fluently, which it was believed would make escape practicable. The plan was to have been put in effect July 4, but Sir Robert refused to leave the British legation, saying he would not go and leave other foreigners.

He then addressed a note to Prince Tuan, urging that in consideration of his many years' service to the empire and the good he had done in China, his life and the lives of his companions be spared. He added that their destruction would bring vengeance and ruin on China. Prince Tuan did not answer, whereupon Sir Robert was again, but Prince Tuan maintained silence. It is stated that the Europeans perished the next night.

The correspondent wishes the public to distrust the details of the massacre. He says the massacre occurred July 9 at Tai Tuen Fu, capital of the province of Shan Shi. Forty foreigners and 100 converts were killed.

BIG VICTORY OF WHITE ALLIES

Tien-Tsin City and Ports Captured.

Chinese Routed After Four-hour Fight.

Losses of Allies Reported to Be Very Heavy.

LONDON, July 12, 12:45 p.m.—(By Atlantic Cable.) The Shanghai correspondent of the Daily Mail, telegraphing under date of July 11, says: "Allied troops resumed the attack upon the Chinese walled city of Tien-Tsin on the morning of July 11, and succeeded in breaching walls, capturing all forts. Chinese were completely routed. Allies took possession of native city and defenses. The total losses of the allies in the engagements of Thursday, Friday and Saturday were about 800 killed and wounded. The casualties were greatest among the Russians and Japanese."

"The guns of the allies did immense damage to the native city, causing many large conflagrations and finally silenced the majority of the enemy guns simultaneously. Then the allies advanced by small parties of Gai-men and French, capturing and burning the city."

UTTER ROUT AT TIEN-TSIN.
Native Forces Retreat in the Greatest Disorder.

Chinese Clash With Russians on the Manchurian Border.
LONDON, July 12, 4 a.m.—(By Atlantic Cable.) There is little further news from China this morning. The attack upon the native city of Tien-Tsin was followed up so swiftly that the Chinese never had time to reorganize and retreat.

RUSSIA FEARS EFFECT OF A LARGER FORCE.
LONDON, July 12.—(By Atlantic Cable.) There is little further news from China this morning. The attack upon the native city of Tien-Tsin was followed up so swiftly that the Chinese never had time to reorganize and retreat.

GOOD SHIP OREGON.
PARSES SIMONOPOLIS STRAITS.
WASHINGTON, July 17.—The following dispatch was received at the Navy Department this morning:
"NOVI, July 17.—Oreion passing through Simonopoli Straits on way to Kure. All well."
[Signed] "WILDE."

GERMANY'S POLICY.
MASSACHUSETTS CONFIRM IT.
[A. P. NIGHT REPORT.]
BERLIN, July 17.—[By Atlantic Cable.] An official of the Foreign Office today points out that Germany's news from the fight at Tien-Tsin on July 13 was more favorable than the reports of the American admiral. Admiral Heidenreich has reported that the attack upon the Chinese was successful, but not wholly so, one fort remaining unoccupied.

Referring to the preparation for an international conference made in the German press, the official said: "Such a plan has not yet been broached by the powers. A conference is not necessary at this stage of the developments, inasmuch as an interchange of views in Europe's cabinets is the quickest way to reach an agreement upon measures for common action in China."

When asked whether the massacre at Peking had caused a change in the attitude of any power, the official replied: "It has not; no further interchange of views has been called forth in consequence." The official added: "The massacre has not altered Germany's policy in China, but has confirmed it."

CHAINED MISSIONARIES.
THEY ARRIVE AT CHE FOO.
[A. P. NIGHT REPORT.]
VICTORIA (B. C.), July 17.—The steamer Koko Maru at Che Foo, carrying seventy-three missionaries and their families, who were on duty at the British churches. They had been chained about by mobs and in their flight they had to pass two nights in small boats.

Capt. Wise of the American cruiser Monocacy has been appointed by the British government as superintendent of the railway between Tien-Tsin and Peking. He is to undertake the duty of supervising the operation of the railway, and to see that the Chinese are not allowed to molest the missionaries and their families.

CHINESE MASS-MEETING.
CALLED AT SAN FRANCISCO.
[A. P. NIGHT REPORT.]
SAN FRANCISCO, July 17.—Consul General Ho Yow proposed to call a mass meeting of Chinese tomorrow, at which will be passed resolutions expressing grief and sympathy for the shocking brutalities inflicted by the Chinese on the missionaries and their families. The meeting was called at the Chinese consulate in the city.

In addition, measures will be taken to render active assistance to the United States troops who are soon to depart from here on their way to Peking. The consul general has been made to the Governor for permission to form a National Guard composed of Chinese under the United States flag, and said to a reporter that the Chinese were only awaiting some leader or some organizer to rush to the aid of their fellow-countrymen of Canton, who have been slaughtered in the north of China.

ITEMS ABOUT CHINA.
Mrs. Belle Probably a Victim.
SAN FRANCISCO, July 17.—Mrs. E. D. Baile of this city is supposed to be among the victims of the massacre in Peking. She is a sister of Alfred Baile, a local attorney, and wife of E. D. Baile, a professor in the Imperial University in Peking. Mrs. Baile spent a portion of last year in this city and in September last left here to join her husband and three children in the Chinese capital. She has not been heard from since May 30.

May Recall Missionaries.
NEW YORK, July 17.—The board of management of the missionary society of the Methodist Episcopal Church at its monthly meeting today passed a resolution giving full authority to the secretary with the China office to recall all missionaries of the society now in China if it should at any time deem it wise to do so. Its resolution authorizes the expenditure of any sums necessary to effect the purpose.

TO KILL DEMOCRATS.
Georgetown Witness Says That Was Powers' Plan.
Finlay Anderson's Testimony in the Goebel Murder Case.
[A. P. NIGHT REPORT.]
GEORGETOWN (Ky.), July 17.—The proceedings in the Powers case were made more interesting today by the introduction of several witnesses who gave testimony against the defendant. The most interesting witness of the day from a standpoint disconnected from either side of the case was Miss Lucy Brock, the sweetheart of the young defendant. It is probable either Clifton, Nokes or Golden will be put on the stand tomorrow to further prove the alleged families of the Powers.

TESTIMONY OF THE DAY.
[A. P. NIGHT REPORT.]
GEORGETOWN (Ky.), July 17.—Finlay Anderson, who was testifying in the Powers case, resumed his testimony today. Witness said that on January 24 Caleb Powers told him that a crowd of mountaineers were going to Frankfort to intimidate the Legislature, and if necessary to kill enough Democrats to give the Republicans a majority. He said: "Powers told me Goebel would never live to be Governor, and said he (Powers) would kill him, if nobody else would."

The conversation took place on the day preceding the day of the advent of the 1800 mountaineers into Frankfort. Witness said he heard Powers and others talking about Goebel wearing a coat of mail, but some of them said he could be killed, anyway. Powers was a member of the Legislature, and the crowd of mountaineers were going to Frankfort to intimidate the Legislature, and if necessary to kill enough Democrats to give the Republicans a majority. He said: "Powers told me Goebel would never live to be Governor, and said he (Powers) would kill him, if nobody else would."

COAST CHAUTAUQU.
CHILD STUDY DISCUSSED.
[A. P. NIGHT REPORT.]
PACIFIC GROVE, July 17.—The twenty-first annual assembly of the Pacific Coast Chautauqua was regularly opened for business at 9 o'clock today, by the reading of the minutes of the last year's session. The assembly was held at the Hotel Monterey, and was attended by a large number of delegates from the various chautauques of the coast.

A general discussion on the present popular question of child study was held by Mrs. E. G. Greene of Palo Alto, president of the California Home and School Study Association. A lecture by John Ivey on "Seeing the Invisible in Nature" was the feature of the afternoon. The evening session was held at the Hotel Monterey, and was attended by a large number of delegates from the various chautauques of the coast.

BANKER OUT OF SIGHT.
Tewksbury's Friends Fear He Has Met a Mishap.
Left Concord for Chicago and Cannot Now Be Found.
[BY DIRECT WIRE TO THE TIMES.]
CONCORD (N. H.), July 17.—[Exclusive Dispatch.] Lewis G. Tewksbury, a prominent banker of this city, has been missing since June 29 and much anxiety is felt by his friends, who fear that some mishap has befallen him. He left here saying that he was going to Chicago, and since that time no authentic news has been received as to his whereabouts. Maj. John B. Abbott, cashier during the past year for Lewis G. Tewksbury, makes the following statement:
"Mr. Tewksbury left his office to go to Chicago, Friday, June 29, on business connected with a gold mine in Southern California in which he is interested, and to establish an office in his business in that city. He intended to return Monday and so notified his partner. It is certain in my mind that some untoward event has occurred to keep the banker from New York and his business, and I believe that when the mystery surrounding his disappearance has been cleared away, my theory will be verified. His course in this matter has been so foreign to his character that I am confident he has met with trouble."
"His heaviest creditors, who had an interest in Tewksbury beyond the business transactions between them, assured me that if Tewksbury had been in need of money he could have had all he wanted by asking. At one time the banker was known to be worth \$1,000,000. He had had luck two years ago, but he made arrangements with his creditors, and I know it to be a fact that he returned over \$50,000 of the indebtedness then incurred last year. I also know it to be a fact that outside of the claims of the bankers' creditors, he has not received one more than \$25,000. It is absurd to say Tewksbury got away with \$500,000 or any such sum of his customers' money."

Capt. Harold Borden Killed.
HALIFAX (N. S.), July 17.—A cablegram from South Africa reports that Capt. Harold Borden of the second Canadian contingent, has been killed. He was the only son of W. Borden, Canadian Minister of Militia.
SWALLOWED CARBOLIC ACID.
SAN FRANCISCO, July 17.—Mrs. Margaret Wagner decided today to die. Before swallowing a large dose of carbolic acid, she sat down and wrote a story of her life, especially noting the hardships she has endured. Then she drank the poison and started to walk to the Receiving Hospital. When she got there she handed her story to a surgeon and soon became unconscious, dying a few hours afterward.

BABY'S BIRTH
Is looked forward to with expectations of joy. The coming of a new baby into the world, however, is a critical one for the mother-to-be, and her anticipations of the coming event are shadowed with gloom. Half the pains she endures in her story is a scientific booklet, giving all details, will be sent free by Bradfield Regulator Company, Atlanta, Ga.

ence, Siena and Umbria, bringing with it, on successive floods, Giotto, Pisa, Angelico, Botticelli, Signorelli, Perugino, and at the last, simultaneously, Raphael and Michael Angelo. All of these save Giotto left their marks upon the walls of the Vatican, which thus becomes the greatest showhouse in the world of the Christian art of the fifteenth and sixteenth centuries.

The work of Michael Angelo is confined to the ceiling and the wall of the Sistine Chapel, the private place of worship of the Pope. The sides of the chapel are decorated with masterly works by the earlier artists of the renaissance—Perugino, the Umbrian master; Botticelli, the Florentine, and Signorelli of Cortona, whose greatest achievement is to be seen at Orvieto. First were painted here the leading events in the life of Moses; later, he depicted the baptism of Christ, the Sermon on the Mount and other incidents in the life of Jesus. Then the work waited for Michael Angelo, whose hand, responsive to his mighty thoughts, should connect in epic grandeur the history of the old and new dispensations, and close the cycle with the thunders of judgment and the doom of the world.

Note—This study by W. H. Downes of Boston will be concluded next week.

REDLANDS.

Big Electric Corporation to Supply Los Angeles.

Two-year-old Child Severely Bitten by a Savage Dog.

REDLANDS, July 17.—[Regular Correspondence.] Redlands is proving to be a center of electric organizations. The fourth big company has just been incorporated under the name of the California Power Company. The new corporation is formed to construct a plant upon the Kern River, and to furnish electric light and power for Los Angeles and other cities in Los Angeles, San Bernardino, Riverside, Orange and Kern counties. The corporation is composed of Redlands people, all interested in one or more of the older electric companies. The incorporators and directors for the first year are Henry Fisher, H. H. Sinclair, George B. Ellis, Frank F. Morrison and B. O. Johnson. The company is ambitious in its capitalization, it being placed at \$2,500,000, of which \$600,000 is actually subscribed. The plant is to be above Kernville on the Kern River, where an engineering party is now engaged running lines for the conduit. A effective fall of about 300 feet is available at the point where the power house is to be located, and it is expected that 10,000 horse power will be developed. 15,000 horse power to be delivered at Los Angeles over 135 miles of wire, showing a loss of 35 per cent. It will require from six to nine months to complete the preliminary work. The company recently filed upon the flow of the river, consisting of from 30,000 to 40,000 inches, for power purposes.

REDLANDS BREVITIES.

A Mexican fandango on Saturday night resulted in stirring up considerable bad blood. As a result one Mexican was brought before Justice Warren yesterday afternoon charged with assault with intent to commit murder. The complaint was subsequently changed to assault, and the trial was set for Thursday. Another was arrested for distributing liquor at the dance. He pleaded guilty and was fined \$25. There were many fights, but none serious.

Yesterday at the power-house in Mill Creek Cañon a little child by the name of Anderson, 3 years old, was bitten in the face by a dog. The dog's teeth entered the child's cheek just below the eye, those of the lower jaw entering further down and meeting the upper ones under the skin. The wound is considered serious.

HIGHLAND.

REPUBLICAN CLUB MEETING.

HIGHLAND, July 17.—[Regular Correspondence.] A meeting of the Republican Club has been called for Thursday evening, July 19, at True's hall, to formulate plans for the campaign. All Republicans of the Highland district and East and West Highlands are invited to be present.

HIGHLAND BREVITIES.

Supervisor Cooley is having Baseline avenue sprinkled with oil as rapidly as he material can be obtained. An innovation in the operation is the use of its residuum left from the crude oil after the gasoline, kerosene and distillate have been removed. In other words, the roads are being sprinkled with liquid asphaltum, and as it contains no volatile elements it is believed that it will prove more lasting and economical than petroleum in its natural state.

The box factory started its fall and winter campaign yesterday. It has been shut down for some weeks, awaiting a supply of lumber from the mill in the mountains. A large number of teams are hauling, a two-horse outfit averaging one trip a day and 3000 feet or load.

RIVERSIDE COUNTY.

SCHOOL MONEY METTED OUT.

RIVERSIDE, July 17.—[Regular Correspondence.] The final distribution of school funds for the year, which has at been made by County Superintendent of Schools Hyatt, amounts to \$9,875.15, of which \$662.55 applies to the unapportioned county fund. The apportionment for Riverside proper is \$494. Corona is second on the list with an appropriation of \$172.

Articles of Incorporation of the Riverside Oil and Development Company, with headquarters at Prescott, Arizona, have been filed. The directors are J. H. Hoffmann, J. F. Roth, W. F. Brown, A. A. Morgan, Manuel Ordeuel, E. E. Powers and E. H. Gruwell.

The voters in the Jurupa school district have voted bonds in the sum of \$400 to erect an addition to the school-house.

The Supervisors, sitting as a Board of Equalization, yesterday reduced the assessment on all the real estate in the San Jacinto school district and the city of San Jacinto 25 per cent.

City Trustee Brown is home from northern trip.

Sheriff Coburn is at Long Beach for stay of two weeks.

LABORITES AT DENVER.

DENVER, July 17.—The Executive Council of the American Federation of Labor today took up the consideration of the Colorado eight-hour case. It had on proposed to appeal from the decision of the State Supreme Court, which was against the constitutional amendment to the law, to the United States Supreme Court. The council finally voted against taking action. The Chicago building trades local, and the St. Louis street car men's strikes were discussed but no action was taken on either. Tonight the members addressed various labor organizations in the city.

ANOKA MYSTERY SOLVED.

MURDER OF MINNESOTA COUPLE
PLANNED BY DAUGHTERS.

(A. P. DAY REPORT.)
ANOKA (Minn.) July 17.—The recent mysterious shooting of William Wise and his wife was solved today by the confession of Eliza Wise, the defendant, James Hardy and Elmer Miller committed the murder, and practically admitted that the plot to shoot her parents was formed with the knowledge of herself and her sister. The mother had \$1000 in the bank, which was to go to her daughters in case of her death, and the girls had said they would divide with their mother when Mr. Wise was dead. The father had forbidden the girls to call on his daughters, and so he was included in the plot. Eliza testified that she saw the boys and their guns outside the house before the shooting.

THEY THUGS?

and Watson Bob Up
Once More.
Josh Murray Case—Do
Wink Father Eye.
Josh Murray, the alleged assassin of James Watson, is to be released tomorrow, after a hearing before Judge Smith today. The hearing was held in the courtroom of the Los Angeles Superior Court, and was attended by a large number of spectators. Judge Smith, after hearing the testimony of the witnesses, decided to release Murray on his own recognizance. Murray's attorney, who appeared with him, stated that his client was innocent of the crime and that he was being released as a matter of course. The hearing was held in the courtroom of the Los Angeles Superior Court, and was attended by a large number of spectators. Judge Smith, after hearing the testimony of the witnesses, decided to release Murray on his own recognizance. Murray's attorney, who appeared with him, stated that his client was innocent of the crime and that he was being released as a matter of course.

CORONADO'S QUEEN.

BRAVE AND GRACIOUS OLD LADY
WHO REIGNS THERE.

Coronado is said to mean "crowned," and, in fact, the Spanish word has that significance. But there is another meaning, which refers to the totem or shaved crown of a monk's head. That really seems to be the application of the word as applied to the peninsula between the ocean and San Diego Bay. For, beautiful as this spot is since E. S. Babcock and his colleagues made it a flowering Eden, it used to be a very bald stretch of sand. But let that pass. It is crowned now with beauty—and Coronado has a queen.

As a guest sits in the dining-room at the Hotel del Coronado he must be very much occupied in enjoying the pleasure of the table if his eye does not catch the stately grace of a figure which comes down the great room. Do not expect a sketch of youthful beauty. The lady is now in her eighty-second year. She is known at pretty nearly every watering place by seaside or on mountain top in the United States. Wherever she appears she is at once recognized as the "Queen." The most casual observer will honor her at sight.

At a guest sits in the dining-room at the Hotel del Coronado he must be very much occupied in enjoying the pleasure of the table if his eye does not catch the stately grace of a figure which comes down the great room. RAISIN COMBINE.

WILL CONTROL THE CROP OF
FRESNO COUNTY.

George E. Church, Esq., a Fresno lawyer, is in town on legal business. He has been a resident of Fresno for seventeen years, and at one time was a heavy raisin grower. He can remember when it was an infant industry up at Fresno, when one car probably held the crop, and he has remained there to see it grow to millions of pounds. As to where raisins are made in California, Mr. Church says:

"A full crop would probably reach 4000 carloads, and not less than five-sixths of them would come from Fresno county. There will this year be a two-thirds crop, and this may be considered very good."

When asked for his views as to the profit of the crop, Mr. Church said: "That depends upon the success of the combination. The required percentage of subscribers is being rapidly secured, and I think there is no doubt of its accomplishment, and the consequent control of the crop by the Raisin Growers' Association. This will keep up prices and prevent the sacrifice of the crop."

Mr. Church was the victim of a hold-up at Fresno some months ago, and in consequence spent three months in the hospital at Oaklands, from whence he has but recently come. The effects of the shock are still noticeable.

ANAKIM.

GASOLINE ENGINE ACCIDENT.
ANAKIM, July 17.—[Regular Correspondence.] Albert Heald was severely burned about the face and shoulders last night while experimenting with a gasoline engine recently constructed by his brother. It was the first time they had attempted to start it. When the explosion occurred Heald was standing immediately over the engine. Serious results are not anticipated, though alarm is felt as to the extent of injury to the man's eyes.
